Art Unit: 2622

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims ~~1-8~~ are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Independent claim 1, line 11, the term "resister" is used. The Examiner believes this term should be _register_ (see line 11 of page 5 of the applicant's specification). Claims 2-8 are rejected by virtue their dependency on claim 1. Correction or clarification is required.

Claims 9-~~12~~ are allowed.

Claims 1-8 contain allowable subject matter and would be allowable if the rejection under 35 U.S.C. 112, second paragraph, was over come.

The following is a statement of reasons for the indication of allowable subject matter: "Data transfer apparatus interposed between a plurality of host apparatuses which perform a data transfer" with "holding" and "selecting" as claimed in independent claims 1 and 9 (in so much as claim 9 is understood) is not taught or render obvious.
